

CARE's Resilience Marker Vetting Form

| | |
|----------------|-------------|
| Project Title: | Date: |
| Country: | Project ID: |
| Stage Graded: | Reviewer: |

1. Select which of the following statements best describes this intervention:

| | |
|--|----------------|
| I Does NOT address the resilience of individuals and communities at risk | Grade 0 |
| II WORKS on addressing the resilience of individuals and communities at risk | Go to Column A |
| III WORKS on addressing the resilience of individuals and communities and the underlying causes of the risks they face | Go to Column B |

2.

| COLUMN A WORKS on addressing the resilience of individuals and communities at risk |
|--|
| Analysis: Is this intervention informed by a vulnerability analysis and basic consultation? <input type="checkbox"/> |
| Activities: Does the intervention build on the needs identified in the analysis by addressing at least one element of CARE's Increasing Resilience approach: capacities and assets, drivers of risk, and an enabling environment? <input type="checkbox"/> |
| CARE's resilience elements: Does the intervention ensure that at least two elements of CARE's approach for increasing resilience are included: a forward looking assessment, flexibility to change, and innovation through learning? <input type="checkbox"/> |

OR

| COLUMN B WORKS on addressing the resilience of individuals and communities and the underlying causes of the risks they face |
|---|
| Analysis: Is this intervention informed by a participatory risk and vulnerability analysis with extensive stakeholder consultation for all three elements of CARE's Increasing Resilience Approach: capacities and assets, drivers of risk, and enabling environment? <input type="checkbox"/> |
| Activities: Does the intervention build on the needs identified in the analysis by addressing all three elements of CARE's Increasing Resilience approach: capacities and assets, drivers of risk, and an enabling environment? <input type="checkbox"/> |
| CARE's resilience elements: Does the intervention incorporate all three elements of CARE's approach for increasing resilience: a forward looking assessment, flexibility to change, and innovation through learning? <input type="checkbox"/> |

3.

Add up the total number of YES:

Add up the total number of YES:

4.

Using the Grading Guidance below,
mark the grade received:

0 YES= Grade 0
1-2 YES= Grade 1
3 YES= Grade 2

Using the grading Guidance below,
mark the grade received:

0 YES = Please complete Column A instead
1-2 YES= Grade 1
3 YES= Grade 2

5.

Justification of choices : Please describe the reasons that support your
YES answers above and provide with supporting documents or links

| Questions | Reasons (with supporting documents or links attached) |
|--------------------------------|---|
| Analysis | |
| Building capacities and assets | |
| Addressing the context | |
| CAREs resilience elements | |

6.

Learning, case studies, mistakes

| Lessons | Feedback |
|--|--|
| What were the three main lessons (can be positive and negative) from integrating Resilience into your project design / Implementation? | Based on these lessons, what will be changed within the intervention to improve integration of Resilience? |
| | |
| | |

If you scored a Grade 0, please explain why integrating Resilience was not relevant to this intervention:
